

## REMARKS

Claims 1-98 are pending. Claims 1-17, 21 and 26-33 are under examination. Claims 1-98 have been canceled without prejudice to Applicants pursuing these claims in a related application. Claims 99-177 have been added. Support for new claims 99-177 can be found throughout the specification and the claims as filed. In particular, support for new claims 99-177 can be found, for example, in original claims 1-98. Accordingly, these new claims do not raise an issue of new matter and entry thereof is respectfully requested.

Applicants appreciate the indication by the Examiner that claim 17 would be allowable if written in independent form. Applicants point out that new claim 102 corresponds to original claim 17 written in independent form.

Applicants further point out that claims 99-125 are directed to the elected group of isolated peptides and conjugates. Applicants believe that product claims 99-125 are allowable and respectfully request that the Examiner rejoin the additional species, which correspond to withdrawn original claims 18-20 and 22-25 (new claims 110-112 and 114-117).

Furthermore, Applicants point out that all of new method claims 126-177 include all of the limitations of new claim 102, which corresponds to allowable claim 17. Applicants respectfully request rejoinder of the process claims that include all the limitations of the allowable product claim, as set forth in the Restriction Requirement mailed March 8, 2005.
